

IDW Registration — Potential Future Additions

Features not yet built into the Business Registration wizard. Prioritise based on founder bandwidth and revenue impact.

UX & Conversion

- **Listing tier / subscription selection** — Let registrants choose a Free, Verified, or Premium listing tier during registration, with pricing shown inline. Converts registration into a revenue moment.
- **Social media & Google Business links** — Fields for Instagram, Facebook, LinkedIn, and Google Business Profile URLs. Improves SEO and trust signals on the public listing.
- **Referral source** — "How did you hear about IDW?" dropdown (Google, Dental conference, Word of mouth, Partner referral, etc.). Informs marketing spend.
- **WhatsApp / live chat widget** — Tawk.to or similar embedded on the registration form for drop-off recovery.

Compliance & Document Management

- **Document expiry reminders** — Capture licence expiry dates and trigger email / WhatsApp reminders 30 and 7 days before. Prevents listings going stale.
- **Re-upload workflow** — Allow businesses to update expired documents from their Dashboard without re-registering.
- **ABDM integration readiness flag** — Checkbox for businesses that are ABDM-compliant or wish to integrate with Ayushman Bharat Digital Mission APIs.

Monetisation

- **Billing & payment for premium listing** — Razorpay / PayU integration at the final step for paid listing tiers. Generates direct revenue at point of registration.
- **Annual subscription renewal flow** — Auto-renewal consent capture at registration for recurring billing.

Data & Analytics

- **UTM / campaign tracking** — Capture UTM parameters from the registration URL so marketing can attribute registrations to campaigns.
- **Partial save / resume later** — Save progress after Step 2 so businesses can return without starting over. Reduces drop-off on mobile.

Post-Registration

- **Onboarding email sequence** — Triggered 3-email sequence after submission: confirmation → verification update → "Your listing is live" with dashboard link.
- **Vendor Dashboard MVP** — Manage catalogue, view leads, update documents, and see profile analytics.
